

# SHREE CEMENT LIMITED

(UNIT-SHREE RAIPUR CEMENT PLANT)

Village: Khaparadih, Tehsil: Simga

Distt. Baloda Bazar (C.G) Pin: 493332, Ph.:07727-203101

CIN NO.:L26943RJ1979PLC001935

SRCP /BB//2016-17/59

Date: 10.09.16

To,  
The Member Secretary,  
Chhattisgarh Environment Conservation Board,  
Paryavas Bhavan, North Block, Sector-19  
Naya Raipur (C.G)

Sub: - Submission of Environment Statement of Cement Plant for the year 2015-16 by Shree Raipur Cement Plant (A unit of Shree Cement Ltd.) Plant located near Village Khaparadih in Baloda Bazar - Bhatapara District (Chhattisgarh).

Ref: 1. Renewal Consent to Operate(Water)letter No.- 1276/TS/CECB/2016, dated 30/05/2016  
2. Renewal Consent to Operate (Air) letter No.- 1278/TS/CECB/2016, dated 30/05/2016

Dear Sir,

Kindly referred to above subject matter and reference letter. In this regards, we are submitting herewith the Environmental Statement for the year 2015-16 of Shree Raipur Cement Plant.

Hope you will find this in Order

Thanking you,

**Yours faithfully,**  
**For Shree Raipur Cement Plant**  
**(A unit of Shree Cement Ltd.)**

  
**R K Vijay**  
**AVP (Operations)**

Enclosed: - As above.

CC to :- Regional Officer, Chhattisgarh Environment Conservation Board, Commercial Complex, Chhattisgarh Housing Board Colony Kabir Nagar, Raipur (C.G.) - 492099

## **ENVIRONMENTAL STATEMENT**

### **FORM – V**

#### **Shree Raipur Cement Plant** **(A Unit of Shree Cement Ltd)**

**Period from: April 2015 to March 2016**

### **PART – A**

|    |   |  |
|----|---|--|
| 1. | Name and address of the Owner / Occupier of the Industry operation or process | M/s Shree Raipur Cement Plant<br>(A Unit of Shree Cement Ltd)<br>Village – Khapradih, Tahsil – Simga,<br>Distt – Baloda Bazar (Bhatapara)<br>Chhattisgarh – 493196 |
| 2. | Industry Category<br>Primary (S.T.C. Code)<br>Secondary (S.T.C. Code)         | Red Category   |
| 3. | Production Capacity   | 2.6 Million TPA Cement<br>1.5 Million TPA Clinker<br>15 MW Waste Heat Recovery Power<br>Generation<br>15 MW Captive Power  |
| 4. | Year of Establishment   | 2015   |
| 5. | Date of the last Environmental Statement Submitted                            | 30/09/2015   |

### **PART – B**

#### **WATER AND RAW MATERIAL CONSUMPTION**

##### **(I) WATER CONSUMPTION:**

Process : 57 KLD (Boiler Feed in WHRS)

Cooling and dust  
Suppression : 331.47 KLD (Cement plant, GPP,)

Domestic : 193.13 KLD (Common for  
Cement plant, Mines)

| Name of Product | Process Water Consumption per Unit of Product Output |   |
|-----------------|--|---|
|                 | During Previous Financial Year (2014-15)             | During Current Financial Year (2015-16) |
| Cement          | 0.328 KL/MT of cement                                | 0.017 KL/MT of cement                   |
| Clinker         | N.A.   | 0.022 KL/MT of clinker                  |
| WHRB Power      | N.A.   | 0.323 KL/ MW of WHRB power generation   |

**(II) RAW MATERIAL CONSUMPTION:**

| Name of Raw Material          | Name of Product | Consumption of Raw Material Per Unit of Output (Cement)/Clinker |   |
|-------------------------------|-----------------|---|---|
|                               |                 | During Current Financial Year (2014-15)                         | During Current Financial Year (2015-16) |
| Gypsum                        | Cement          | 0.0439  | 0.0543                                  |
| Fly Ash                       |                 | 0.3119  | 0.3163                                  |
| GBFS Slag                     |                 | 0.300   | 0.0657                                  |
| Clinker                       |                 | 0.6442  | 0.6263                                  |
| Limestone                     | Clinker         | N.A.  | 1.5030                                  |
| Pet Coke                      |                 |   | 0.0998                                  |
| Additives (Iron Ore, Red Mud) |                 |   | 0.0195                                  |

**(III) POWER CONSUMPTION (KWH/T OF PRODUCT):**

| Product Name                    | During Previous Financial Year (2014-15) | During Current Financial Year (2015-16) |
|---------------------------------|--|---|
| Cement                          | 47.25                                    | 69.89                                   |
| Clinker                         | N A                                      | 66.31                                   |
| WHRB Power (KWH / KWH of power) | N A                                      | N A                                     |

**(IV) TOTAL PRODUCTION (MT):**

| Product Name | During Previous Financial Year<br>(2014-15) | During Current Financial Year<br>(2015-16) |
|--------------|---|--|
| Cement       | 40277                                       | 949213                                     |
| Clinker      | N A   | 1177513 ✓                                  |
| WHRB Power   | N A   | 34817013 KWH ✓                             |

**PART – C**

**DISCHARGED TO ENVIRONMENTAL / UNIT OF OUTPUT**

| Pollutants | Quantity of Pollutants Discharged (Mass/Day) | Concentration of Pollutants in Discharge (Mass/Value)  | Percentage of variation from prescribed standard with reasons |
|------------|--|--|---|
| (a)        | Water  | As the plant is being operated on dry process technology, no liquid effluent is generated from cement plant.<br>The Domestic waste water generated from the office toilet and canteen being treated with STP and treated water used in greenery development in the plant premises. |   |
| (b)        | Air  | Please refer Annexure – 1 & 2  |   |

## PART – D

### HAZARDOUS WASTE

(As specified under Hazardous Wastes (Management, Handling & Trans boundary Movement Rule, 2010))

| Hazardous Waste  | Total Quantity (Ltrs.)  |  |
|--|---|--|
|  | During Current Financial Year (2014-15)   | During Current Financial Year (2015-16)  |
| a) From Process (Cement manufacturing is based on "Dry Process" No Hazardous waste is generated from the process except used oil which is drained from Machinery / Equipments) | We have already applied to Chhattisgarh Environment Conservation Board on dated 10/07/2015 for obtaining of Hazardous waste authorization permission. Inspection has been also done. HW authorization awaited | We have already applied to Chhattisgarh Environment Conservation Board on dated 10/07/2015 for obtaining of Hazardous waste authorization permission. Inspection has been also done. Waiting for authorization. HW authorization awaited |
| (b) From Pollution Control Facilities  | N.A.  | N.A.   |

## PART – E

### SOLID WASTE

|     |   | Total Quantity   |  |
|-----|---|--|--|
|     |   | During Previous Financial Year (2014-15) (MT/Year)                               | During Current Financial Year (2015-16) (MT/Year)                                |
| (a) | From Process  | Nil  | Nil  |
| (b) | From Pollution Control Facility                     | Dust collected in the ESPs, Bag House and Bag Filters are recycled to the system | Dust collected in the ESPs, Bag House and Bag Filters are recycled to the system |
| (c) | 1. Quantity rejected or re-utilized within the unit | 100%   | 100%   |

|  |    |         |
|--|----|---------|
| 2. Sold<br>(Metal / nonmetal /<br>electrical / plastic scrap /<br>Other) | NA | 1021.43 |
| 3. Disposed  | NA | NA      |

Note: - Scraps sold to scrap dealers / recyclers

### **PART – F**

**Please specify the characterization (in terms of composition and quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both the categories of wastes:**

#### **Battery Wastes:**

As specified under Batteries (Management and Handling) Amendment Rules, 2010, we have purchased following new batteries of different categories.

| Number of new batteries of different categories purchased from the manufacturer / importer / dealer or any other agency. | During Current Financial Year<br>April,2015 to March,2016 |                                 |
|--|---|---------------------------------|
| Category:  | No of Batteries   | Approximate Weight<br>(In Tons) |
| (i) Automotive   |   |                                 |
| a) Four wheeler  | Nil   | Nil                             |
| b) Two wheeler   | Nil   | Nil                             |
| (ii) Industrial  |   |                                 |
| a) UPS ( Vrla Type)  | 78  | 1.342                           |
| b) Motive Power  | 0   | 0                               |
| c) Stand –by   | 0   | 0                               |
| (iii) Others   | Nil   | Nil                             |
| <b>Total</b>   | <b>78 Nos.</b>  | <b>1.342 MT</b>                 |

|   |   |                                 |
|---|---|---------------------------------|
| Number of used batteries of different categories sent to manufacturer/dealer/importer/registered recycler/or any other agency | During Current Financial Year<br>April,2015 to March,2016 |                                 |
| Common for Cement plant & Mines   |   |                                 |
| Category:   | No of Batteries   | Approximate Weight<br>(In Tons) |
| (i) Automotive  |   |                                 |
| a) Four wheeler   | Nil   | Nil                             |

|                 |     |     |
|-----------------|-----|-----|
| b) Two wheeler  | Nil | Nil |
| (ii) Industrial |     |     |
| a) UPS          | Nil | Nil |
| b) Motive Power | Nil | Nil |
| c) Stand –by    | Nil | Nil |
| (iii) Others    | Nil | Nil |
| Total           | Nil | Nil |

Used battery scrap will be sent to CPCB authorized recycler

### **Hazardous Wastes**

Cement manufacturing is based on “Dry Process”. No Hazardous waste is generated from the process except used oil which is drained from Machineries / Equipments. The used oil & Acid Lead will be sold to CPCB authorized recyclers.

### **E-WASTE**

|                                  | Total Quantity (MT)                    |  |
|----------------------------------|--|--|
|                                  | During Previous Financial<br>(2014-15) | During Current Financial Year<br>(2015-16) |
| April, 2015<br>to<br>March, 2016 | Nil                                    | 0.064                                      |

Note- E-Waste Will be sold to approved E- Waste Recycler

### **Bio-Medical Wastes:**

Bio-medical waste generated during current financial year April, 2015 to March, 2016 under the Bio-Medical Waste (Management & Handling) Rules 1998, are as follows.

|                            | Bio-Medical Waste Quantity (Kg) |         |         |
|----------------------------|---------------------------------|---------|---------|
|                            | (Cat 4)                         | (Cat 6) | (Cat 7) |
| April, 2015 to March, 2016 | 1.59                            | 4.40    | 0.25    |

## **PART – G**

### **IMPACT OF THE POLLUTION CONTROL MEASURES ON CONSERVATION OF NATURAL RESOURCES AND CONSEQUENTLY ON THE COST OF PRODUCTION**

M/s Shree Raipur Cement Plant (A Unit of Shree Cement Ltd.) is being operated on dry process technology, which is cost effective and environmentally clean technology. The advantage of dry process is also in fuel economy. The stack emissions from the plant are controlled by equipment like ESPs, Bag House and Bag

Filters installed at various material transfer points to clean the process and arrest the fugitive emissions. The particulate matter collected in the pollution control equipment is recycled in process and neutralizing the cost of operation of pollution control equipments and hence no cost impact on the production cost.

**PART – H**

**ADDITIONAL MEASURES / INVESTMENTS PROPOSAL FOR ENVIRONMENT PROTECTION INCLUDING ABATEMENT OF POLLUTION**

Green belt development and tree plantation is our ongoing process. So far 23,704 plants have been are planted at various locations up to March 2016. We have developed Green House / Nursery about 2 acre area & 200 numbers of fruits plant has been also planted in nursery area. We have planted about 2, 00,000 numbers of hedging within plant area in 1.92 ha area.

Apart from this, we have planted 15000 trees near School of Bharuwadih, Semradih, Khapradih, Chandi, Karahi & Parkidih villages with about 10 KM of both side of road plantation from Bharuwadih to chandi village under Hariyar Chhattisgarh project.

**PART – I**

**ANY OTHER PARTICULATES FOR IMPROVING THE QUALITY OF ENVIRONMENT.**

1. Installed 4 numbers of online Ambient Air Quality Monitoring Stations and Installed Continuous Emission Monitoring System at raw mill, kiln stack. Cooler stack, Cement mill stack.
2. Monitoring of stack emission and ambient air and water quality is being done regularly.
3. Opacity meters have been installed at the stack of Kiln, Coal mill, clinker cooler and cement mill for continuous online stack emission monitoring.
4. On line SO<sub>2</sub> & NO<sub>x</sub> Analyzer have been installed at Kiln stack to measure SO<sub>2</sub> & NO<sub>x</sub> on continuous basis.
5. On line CEMS monitoring system has been installed in Raw Mill & Kiln stack.

6. On line SO<sub>2</sub> & NO<sub>x</sub>, O<sub>2</sub>. Gas emission is being measured through Flue gas Portable analyzer on regularly basis.
7. Cement being manufacturing in dry process and there is no any effluent generated from the process hence maintaining Zero Effluent Discharge Plant.
8. Real time on line CEMS data for AAQMS & stacks, are transmitting to State Pollution Control Board or Pollution Control Committees and Central Pollution Control Board on continuous basis.
9. Emission level well within the prescribed norms.
10. Waste heat recovery system has been installed.
11. Concreting near Raw mill, coal mill, cooler, cement mill, packing plant and TG building has been done.
12. Fly ash is being transported in the closed containers and bulkers.
13. Constructed two Clinker silo with fully covered tin shed cover shed where stored clinker to avoid dust emission.
14. Installed bag filter with fully enclosed tin sheet at all material transfer points to avoid fugitive dust emission
15. All Storage Silo installed with Bag filter for controlling dust emission
16. Maintenance department is doing regular checking and scheduled maintenance of all the pollution control devices.
17. Civil department taking care for of House keeping with the help of two road sweeping machines.
18. Domestic waste water generated by unit being treated in Movable Bed Bio reactor (MBBR) based sewage treatment plant (STP). Treated STP water being used for plantation/ greenery development.
19. Horticulture Department is taking care of tree plantation and green belt development.
20. Applicable best available control measures has been adopted to minimize the fugitive dust emission from each fugitive dust source type within active operation

21. All Belt Conveyor belt fully covered with tin sheet & also installed Bag filter at all material transfer points.
22. Constructed cover shed where we stored our all raw material including Coal to avoid dust emission.
23. Developed 1 Lac KL capacity Rain water harvesting Pond with recharge pit at Plant premises where mostly rain water from the within the plant premises is being stored & recharging ground water thru recharge pit.

On support of above, we are enclosing herewith following:-

Annexure-1 : Stack Emission monitoring report.

Annexure-2 : Ambient Air Quality Monitoring Station Report.

-----
